To Leonid Bliachov,  
CEO of Consolware GmbH,  
Gabriel Max Str., 1 Berlin, 10245, Germany

## Testimonial Letter

Dear Mr. Bliachov,

On behalf of Maytoni GmbH, I would like to express our pleasure in regards to the quality service that we have been receiving from Consolware GmbH within the Microsoft Dynamics NAV 2017 migration project.

Maytoni GmbH is a German manufacturer of lighting products that offers a wide range of high-quality lamps. The company strives to innovate in order to create unique products and provide its customers with excellent services.

We applied to Consolware GmbH to migrate the solution from Microsoft Dynamics NAV 2017 (version 10) to Microsoft Dynamics 365 Business Central 2022 release wave 1 (version 20). The new software will help us develop the strategic digital capabilities and respond to new demands in the process of business development.

The project started in February 2023 and is ongoing. The system covers the following functional modules:

- sales management;
- supply chain management;
- integration with remote warehouses and orders.

The Consolware team expertise in various areas, including setting up the required environment, work with additional software like third-party add-ons DATEV and OPPlus, has truly impressed us.

Their team meticulously discussed the project plan, considering any necessary add-ons and thoroughly checking the newly installed software and permissions. They also displayed excellent communication skills, regularly keeping us updated on the project's progress. This level of attention to detail ensured a smooth and efficient project execution.

One of the crucial aspects of our project was objects preparation, exporting txt files for import to BC14, and subsequent object transformation to new AL format using txt2AL and then object import to BC20. Consolware GmbH handled these tasks, ensuring a seamless transition and integration of our data. Their expertise helped to build a process that was executed with precision and accuracy.

Overall, I am delighted with the services provided by Consolware GmbH and look forward to long-term cooperation with their team.

Sincerely,

Dmitry Kudinov,  
Chief IT Officer  
Maytoni GmbH
